PROFILE

Highly skilled Software Engineer with 5+ years of experience with a strong background in QA testing, UX/UI design, software development, and project management. Proficient in JavaScript, CSS, HTML, React, and SQL, as well as Agile, and CI/CD methodologies. Demonstrates excellent communication and problem-solving skills with the ability to mentor and build up teams and individuals. With a proven ability to deliver optimized and scalable solutions, while continuously expanding technical knowledge and staying current with industry trends and best practices.

EMPLOYMENT HISTORY

Senior Project Manager, Appstango

Lehi, UT

May 2022 - Present

- Led and mentored development teams in software project scoping and management, fostering a continuous learning environment with an emphasis on agile development and QA testing principles. Enhanced project practices using standardized design tools and test methodologies demonstrating keen attention to quality and team performance.

Contracted Web Developer, Freelance

Riverton, UT

Mar 2017 – Aug 2019

- Designed, developed and implemented responsive UIs with HTML, JavaScript, and CSS, ensuring a consistent user experience. Conducted QA testing and website enhancements, demonstrating a commitment to improving functionality and customer satisfaction.

Quality Assurance Manager, Geneva Rock Products

Draper, UT

Feb 2015 – Apr 2022

- 7 years of experience in Quality Assurance Testing, certified, led award-winning QA teams for local, state, and federal projects. Developed and implemented standardized training and onboarding processes, and demonstrated proficiency in Excel and SQL database management.

QA Tester, 4LIFE LLC

Sandy, UT

Oct 2015 – Jun 2017

- Wrote and improved the UI automation. Manually tests all features of any code changes, as well as manages the package deployment to the server.

Network Analyst, San Joaquin County Superior Court

Stockton, CA

Aug 2012 – Feb 2015

- Responsible for maintaining and optimizing the court's network infrastructure to ensure seamless communication and data exchange between judicial staff and the public. This role involves monitoring network performance, troubleshooting connectivity issues and providing network security.

EDUCATION

Bachelor of Science in Software Engineering, Western Governors University

Aug 2021 – Feb 2024 (Due to Graduate)
