PROFILE

Results-driven Project Manager with experience in software development, implementation, stakeholder communication, and technical coordination. Skilled in managing cross-functional teams, facilitating workshops, and supporting remote deployments across diverse client environments.

EXPERIENCE

SENIOR PROJECT MANAGER • MAY 2022 — PRESENT

Appstango • Lehi, Utah

Managed software rollout and configuration for multi-phase client implementations. Facilitated project kickoff sessions, requirements discovery, and sprint reviews with stakeholders.Aligned with clients on milestone planning, scope control, and solution documentation. Supported clients through training, platform adoption, and post-launch reviews.

SOLUTIONS ARCHITECT • DEC 2023 — PRESENT

Utah Tech Labs • Draper, Utah

Directed cross-functional teams through the design and delivery of visual and functional project deliverables. Maintained alignment across creative, technical, and product stakeholders to ensure project clarity and efficiency.Championed the implementation of project tracking systems and facilitated internal documentation and communication.

QA ENGINEER & INTERNAL PROJECT COORDINATOR • AUG 2008 — APR 2022

Geneva Rock Products • Utah

Coordinated software deployment timelines with operations and IT teams. Communicated QA milestones, reported on release-readiness, and tracked defect resolution. Served as liaison between user feedback groups and development teams for requirements updates.
